

Hello Friends!

I will be participating in the PA BREEDING BIRD BLITZ for CONSERVATION this year on a team named _____. We are raising money to support the protection of habitat for birds whose populations are declining in Pennsylvania.

The Blitz runs from June 9 thru June 19. My team will be finding as many birds as we can in _____ on a single day. You can read more details about the event at www.breedingbirdblitz.org.

Please consider donating on our behalf and supporting this great cause! Donations can be made at _____ either via lump sum or by donating an amount per species we observe (we are estimating a list of approximately ___ to ___ species). If you choose the latter just let me know and once the competition is complete I can let you know how many species we found. Donations must be made by July 15.

Whether you can donate or not, please wish us good luck! Thanks for your time reading this and for sharing with others as you see fit.
